Cupid

Red Titi Monkey

Cupid is Shaldon's breeding female and is an excellent mother. Like lots of **Titis** she's quite nervous around new things.

Red Titi Monkeys twist their long tails together when they're sleeping

Cupid Facts

Age: 15 years
No. in the zoo: 5
Cuteness: 4
Friendliness: 3
Cleverness: 3
Noisiness: 2

Special Facts

Countries: Ecuador,
Colombia and Peru
Threat status: 7 -
Least Concern
Favourite foods:
fruit, bamboo
shoots, insects.

Maxi

Common
Squirrel Monkey

Maxi is one of Shaldon's youngest **Squirrel Monkeys** and is quite cheeky. She likes running around and

sometimes jumps on the keepers. **Squirrel Monkeys** are very vocal and have up to 30 different calls.

Maxi Facts

Age: 3 years
No. in the zoo: 6
Cuteness: 4
Friendliness: 5
Cleverness: 4
Noisiness: 5

Special Facts

Countries: Various
including Brazil,
Ecuador, Colombia
Threat status: 7 -
Least Concern
Favourite food: fruit,
insects and tree frogs.

Tyrone

Slender-tailed
Meerkat

Tyrone is Shaldon's largest **Meerkat** and lives with his brothers and sister. He loves his food but drinks water in quite a weird way (he

sticks his whole bottom chin in the water bowl). When eating scorpions, **Meerkats** rip the sting off to avoid getting stung when eating them.

Tyrone Facts

Age: 6 years
No. in the zoo: 4
Cuteness: 3
Friendliness: 3
Cleverness: 3
Noisiness: 2

Special Facts

Countries: Botswana,
Namibia, South Africa
Threat status: 7 -
Least Concern
Favourite food:
insects, scorpions, eggs,
reptiles, seeds.

Mini B

Yellow-breasted Capuchin

Mini B is Shaldon's oldest male **Capuchin**. He is quite clever and loves to do his training with our keeper, Carly.

Capuchins are very intelligent and use tools, such as rocks, to crack open hard nuts that they can't bite into.

Mini B Facts

Age: 12 years
No. in the zoo: 8
Cuteness: 4
Friendliness: 5
Cleverness: 5
Noisiness: 3

Special Facts

Country: Brazil
Threat status: 3 – Critically Endangered
Favourite food: fruits, seeds, flowers, insects, reptiles, eggs and sometimes shellfish.

Eka

Red Ruffed Lemur

The **Red Ruffed Lemurs** are Shaldon's loudest resident at the zoo and they make frequent calls throughout the day.

Red Ruffed Lemurs

have six bottom teeth called a toothcomb with which they groom and eat.

Eka Facts

Age: 7 years
No. in the zoo: 5
Cuteness: 3
Friendliness: 3
Cleverness: 3
Noisiness: 5

Special Facts

Country: Madagascar
Threat status: 3 – Critically Endangered
Favourite food: Figs.

shaldonwildlifetrust.org.uk

Lien

Owston's Civet

Lien is nocturnal but she will sometimes wake up to get bugs and worms from her keepers. **Owston's Civets** are very rare

and there are only 11 of them in zoos outside of Vietnam.

Lien Facts

Age: 1 years
No. in the zoo: 1
Cuteness: 3
Friendliness: 3
Cleverness: 4
Noisiness: 2

Special Facts

Countries: Laos, Vietnam and southern China
Threat status: 4 – Endangered
Favourite food: worms.

shaldonwildlifetrust.org.uk

Elsa

Azara's Agouti

Elsa is Shaldon's bravest **Agouti** and will say hello each morning to the keepers, but she expects some food in return. **Agoutis**

have incredibly strong teeth and can chew into things as hard as coconuts.

Elsa Facts

Age: 6 years
No. in the zoo: 3
Cuteness: 3
Friendliness: 5
Cleverness: 3
Noisiness: 1

Special Facts

Countries: Brazil, Paraguay and Argentina
Threat status: 0 – Data Deficient
Favourite food: nuts and seeds.
